Adding Jonathan. (Please seem emails below for background. I will forward the meeting to you too.)

## Ex. 5 Deliberative Process (DP)

In terms of your schedule, I don't think calling in is the best option so let's see if someone from BEAD can cover for you.

Thank you.

Hi Monisha,

Jonathan did advise us on the "additional factors" section and the flow of our document overall.

The tentative meeting on 2/24 falls on my compressed day. May I ask what you would like me to do? There is a chance that the meeting will be moved to accommodate the registrant's availability. If the meeting remains on 2/24, I could 1) call in remotely for the hour or 2) discuss the material in the document ahead of time with the BEAD team and be briefed about the discussion with the registrant after.

I hope that you are enjoying your weekend!

Background on the invitation that I just sent. Did Jonathan help you with this assessment?

Thank you, Hope.

Is there anyone from BAB that should be invited?

Thanks,  
Debra

**Subject:** Aldicarb - Registrant is requesting call to discuss %PCT used in dietary analysis. Who should be invited?

Hi Monisha / Hope

We recently had a conversation with the registrant (Pyxis) on the aldicarb new use petition for use on citrus in Florida and Texas. They took our risk concerns back to their client (AgLogic) and requested the data points used in the DEEM assessment that reached a food-only 117% of the aPAD (children 1-2 yrs). This also included the %PCT used in this analysis provided in the draft BEAD review from November.

They have asked for conference call to discuss BEAD's findings on how the %PCT was determined

### Ex. 5 Deliberative Process (DP)

In order to determine a time for this call, who from BEAD should I be including in the discussion with Pyxis and AgLogic.

Please let me know who should be on the invite list and I will start making plans to find mutually acceptable times for EPA and the registrant for this discussion.

Thank you in advance for your assistance.
